

Appellate & Litigation Support

When the outcome of a case is challenged, either by you or by a plaintiff, you need a skilled attorney to counsel and represent you in the appeal process. HSB has a solid record of success on appeal.

Obtaining a favorable verdict often is just the beginning of a case. That's when appellate expertise becomes crucial. Even if HSB did not serve as trial counsel for the original case, our appellate attorneys will review the trial record and give you an honest opinion regarding the likelihood of success on appeal. HSB's appellate attorneys are available to prepare and respond to post-verdict motions and, ultimately, handle briefing and the presentation of oral argument in your case on appeal in state and federal court. HSB can also advise you on how to protect your assets and suspend execution of a judgment while your case is pending an appeal.
