

Insurance

Hermes Sargent Bates has attorneys whose practices are entirely dedicated to the analysis and handling of all types of insurance issues. We can counsel you regarding claims handling and how to avoid litigation.

Our Insurance practice involves analyzing insurance issues, providing legal opinions and representing insurance companies, agents and/or the insured in insurance-related lawsuits. It includes all lines of insurance, including commercial general liability, excess/umbrella, personal and commercial auto, homeowners, professional liability, property and other specialty policies.

The Insurance practice group at HSB combines industry expertise with trial experience. We actively pursue declaratory judgment actions and have achieved outstanding results in trial situations. We also will work with you to promote education about insurance issues and changing insurance law.
